10	450L/99G	30"	48"	225lbs.
10	900L/200G	38"	48"	390lbs.
10	1100L/250G	38"	60"	405lbs.
10	1360L/300G	38"	72"	475lbs.
10	2200L/500G	50"	72"	675lbs.

## General Information

HASSCO's Transport Canada approved mobile IBCs are built tough to withstand the rigours of transporting fuel to any off-road/on-road location. All tanks come with a TransCAN approved vented fill cap, emergency vent, internal baffles and reinforced pump mounts. Our cylindrical tanks come with saddles for stabilization and bolt down straps to secure the tank to your truck, trailer or frame. These tanks are best suited for applications requiring the storage & transfer of flammable fuels. All HASSCO tanks are phosphate washed prior to applying a high build metal treatment and two top coats of enviro-smart water based paint. Other coating options such as epoxy and powder are available upon request.

## Options

- Double wall & single wall configurations
- Transfer pumps and meters
- Re-certification of expired mobile tanks
- Powder Coating

## Sizing

- Up to 2200L/500G

## Conformity

- Transport Canada\CGSB
