Material (gauge)	Capacity	Height	Length	Width	Weight
12	15L	7"	12"	12"	20lbs.

General Information

HASSCO's ULC approved overfill/spill boxes are designed to thread into an existing fill opening of a tank that does not currently meet overfill requirements. These boxes are intended to capture small amounts (up to 15L) of product during normal filling procedures. HASSCO's overfill box is equipped with a lockable, hinged cover to prevent debris from entering the filling area.

Options

- Can be painted to match your existing tank
- Powder Coating

Sizing

- 15L

Conformity

- ULC
